

### **Amendments to the Abstract**

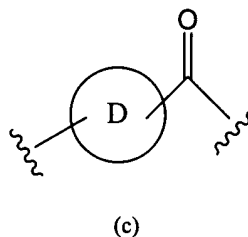

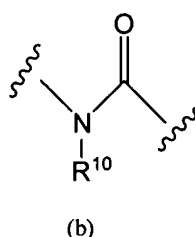

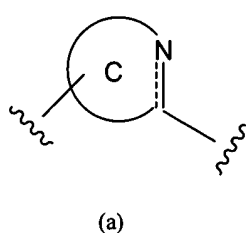

Kindly replace the original Abstract of the Disclosure with the rewritten Abstract of the Disclosure as set forth on the attached separate sheet.

## ABSTRACT OF DISCLOSURE

Compounds of Formula (1), pharmaceuticals containing the same, especially anti-HIV agents having anti viral activity, especially inhibitory activity against HIV integrase,

wherein X represents either one of the following groups:

(wherein, C ring is nitrogen-containing aromatic heterocyclic ring in which at least one atom in atoms neighboring the atom bound to the pyrimidine ring is unsubstituted nitrogen atom;  $R^{10}$  is hydrogen or lower alkyl; D ring is aryl or heteroaryl)  $Z^1$  and  $Z^3$  each is independently a single bond, O, S, S(=O) or  $SO_2$ ;  $Z^2$  is a single bond, lower alkylene or lower alkenylene; Ar is optionally substituted aryl or optionally substituted heteroaryl;  $R^1$  is lower alkyl, substituted lower alkyl or the like;  $R^2$  is a hydrogen atom or optionally substituted lower alkyl; or  $R^1$  and  $R^2$  may form, together with an adjacent atom, an optionally substituted heterocyclic ring, a pharmaceutically acceptable salt or a solvate thereof.
